# Introduction

Year 2015, Tuzla Community Foundation started in one hand very intense and enthusiastic, but on the other hand sad and unfortunate.

In fact, in January 2015, on our traditional Active Citizens' Conference, we announced our new visual identity and a whole range of activities to improve living conditions in five local communities of Tuzla Canton.

Unfortunate and sad incidence occurred in February, when our longtime colleague, a very successful Community Organizer and Manager of Development Funds and Philanthropy, Angelina Hodzic, suddenly went to the hospital and after several months of struggling for life, died in April, leaving a huge emptiness in the hearts of her three children and entire family. This was one of the most disappointment moments in our Foundation. We fought with a terrible sense of loss of wonderful person, a

valuable colleague and true friend and with the regular tasks that we had jointly planned, year after year, with our dear colleague for the past ten years.

All together, we had to move on. We had to continue with the implementation of our annual plans, objectives and visions. We have had tremendous support from all of our donors, partners, activists and volunteers, whom I warmly thank for understanding and patience if we had to make some small deviations in the implementation of planned activities.

Our new tree logo with an extensive and rich tree crown followed us all the time. New logo reminded us of our determination in order to make us persistent and tough, with strong and solid roots that we have in previous years strengthened through joint cooperation with active citizens in Tuzla region.

- As in previous year, Tuzla Community Foundation has accomplished its regular and special support programs in five cities of Tuzla Canton: Tuzla, Lukavac, Kalesija, Srebrenik and Zivinice. In all of our programs the following activities were accomplished:
- Non-formal education for citizens were organized, including youth, in the field of community organizing, philanthropy, leadership and project management;
- Support was given to initiatives and projects of civic and youth groups and associations in order to improve living conditions in mentioned cities;
- Local resources were mobilized through voluntary engagement of active citizens, then partnerships with municipalities, local businesses and individuals, to support projects and initiatives of citizens in Tuzla region.

We sincerely hope that you will read our 2015 Annual Report with a pleasure, and you will continue to monitor our work in the following years.

On this occasion we would like to thank from the bottom of our harts to all of our volunteers, activists, partners and donors for their time and resources invested in development of our Tuzla Community!

Jasha JaSarevic JORN

# Strategic map 2015-2019

# OUR VISION

Our community is a vital and perspective community of active citizens who build sustainable and safe future for all generations through participation and their <u>own resources</u>.

# OUR MISION

Tuzla Community Foundation supports citizen participation in the democratic development of their community through networking and partnership, inclusion and empowerment of young people, as well as supporting civic initiatives and projects for sustainable community development. Through promotion of culture of giving and volunteerism, we pool donations and direct them into activities that improve living conditions in Tuzla.

# STRATEGY

# PROGRAM OF SUPPORT TO CIVIC SECTOR DEVELOPMENT

FTZ develop support programs to meet the needs of civic sector and active citizens. Empower civil leaders and active group of citizens, especially young people, through non-formal education, networking and financial support.

# FOUNDATION DEVELOPMENT AND SUSTAINABILITY

Trough transparency and development of endowement fund in Tuzla region, TCF is committed to sustainability of the local foundation, as well as the legitimacy and visibility of the civic sector community service.

# FINANCIAL SUPPORT AND FUNDS DEVELOPMENT

TCF affects on resolving community issues in Tuzla region by supporting organized civic groups to implement initiatives beneficial to them and the whole community. We develop partnerships with local donors through investment in programs and philanthropic funds for community development and civic sector.

# PHILANTHROPY AND CIVIC SECTOR PROMOTION

**PROFESSIONAL** 

In addition to the services to donors through development funds, we organize campaigns to promote a culture of giving in Tuzla region, positive stories about local philanthropists, activists and volunteers who invest their own resources in development of their communities and create positive changes.

TRUSTWORTHY

# **1. Program Beneficiaries**

Direct beneficiaries of TCF are all those citizens that participated in education, meetings, conferences, implementation of citizens' and youth projects that TCF supported as well as other TCF activities, such as researches about community needs.

In 2015, participated 11.636 (6295 M; 5341 F) in FTZ activities.

We estimate that the number of indirect FTZ beneficiaries in 2015 was **63,514**. All activities in pervious year are planned for equal participation of women and man, as well as for representatives of vulnerable groups in targeted communities, such as youth, unemployed, elderly, and other interested citizens.

<sup>6</sup> 

# 2. Programs

In 2015, TCF has implemented its activities in Tuzla and the municipalities of Zivinice, Srebrenik, Lukavac and Kalesija.

# 2.1. Youth Program

The Youth Bank programme (abbreviated YB) is implementing in five (5) cities of the Tuzla Canton: Tuzla, Kalesija, Srebrenik, Lukavac, and Zivinice. The main segments of the program are: education and citizens organizing, financial support of civic initiatives and networking of active communities and citizens in cooperation with the NGO "Network of Active Communities" of Tuzla.

# 2.2. Community Development Program

The main program activities are: education of youth from 15-26 years old in the field of leadership, decision-making and philanthropy, providing financial support to youth associations and groups, and youth networking. In addition, in cooperation with the organization for children and youth "Smile for smile", we promote democracy, tolerance and equality among children and youth.

# 2.3. Open/Community Education Program

The program is realized through the support of community centers and open schools in Tuzla and beyond, in cooperation with Agora Center Tuzla and the International Association of Interactive Open School.

# 2.4. Program of Philanthropy

Within the program campaigns are organized and develop partnerships with local donors and philanthropists. As part of FTZ, individuals, families, businesses, organizations and civic groups, without a lot of administrative procedures and costs, have the opportunity to establish its own fund to support civic sector and community service projects in Tuzla region.

# 3. Implemented Activities in 2015

### **3.1. STRENGTHENING OF LEADERSHIP CAPACITIES AND ACTIVE CITIZENS**

In 2015, Tuzla Community Foundation organised 14 trainings for community organisers involved in the work of the Local Groups for Community Development, and youth trainings within the Youth Bank.

### Trainings in Community Development Program

In the period from the 21st of July to the 17th of August 2015, in active communities Hrasno, Gornje Zivinice, Tinja-Lisovici, Kiseljak and Bikodze Basic training for community organizers was organized. A Total number of participants were 133 (95 male, 38 female). The main modules included: Fundamentals and Principles of Community Organisation, Methods of Mobilising Citizens to Take Active Participation in the Community Development, Communication and Leadership Skills for Mobilising Non-financial Resources of the Community, Methods of Needs Analysis and Creation of a Community Action Plan. In addition, Advanced Training in Advocacy for Community Organisers was organized. : Module I titled "Evaluating the Needs and Advocating" was held, in the period 24-25/10, with a total number of 36 participants (22 male, 14 female), and Module II on 07/11/2015, titled "Action Planning for Advocacy Campaigns" with a total number of 24 participants (12 male, 12 female). In the period between the two modules, participants implemented the needs survey using questionnaire and focus groups. After the training, the participants prepared five (5) advocacy project proposals, which were discussed at the session of the Steering Board of the TCF, and approved for support in the coming year.

Trainings within the Support Programme for Citizens and Groups of Citizens Affected by Floods and

In 2015, the Active Communities Programme was implemented in the area of 18 neighbourhoods, i.e. 10 local communities in the City of Tuzla (Par Selo, Mramor, Gornja Lipnica, Simin Han, Gornja Tuzla, Solina, Mramor, Dobrnja, Grabovica, Kiseljak), in the municipality of Lukavac (local communities of Prokosovici and Bikodze), Zivinice (local communities of Gornje Zivinice, Serici, Barice, Priluk and Suha), Srebrenik (local communities of Seona and Tinja - Lisovici) and Kalesija (local communities of Donje Vukovije and Hrasno). All of the targeted neighbourhoods are rural suburban communities and facing the challenges of poverty, decreased opportunities for the development of individuals and the whole community, and the social exclusion of certain population groups, such as youth, women, elderly, unemployed and Roma. All 18 active communities are the members of the Active Communities Network (further in text: MAZ). The Network has been developing as an independent association for a year now, under mentorship and institutional support from the TCF. The TCF provides advisory support and mentors the coordinators of the LGRZ who regularly hold meetings in their communities in order to set surveying of their community's needs, carry out annual plans of actions, and plan projects they wish to implement during the year. The LGZRs have had a total of 115 planning meetings and workshops with participation of 687 citizens. In May 2015, TCF organized training for the five (5) mentors of Active Communities Network who took the role of monitoring the process of active community organizing and who will work the coordinators of with community development local group on strengthening skills of presentation and communication, as well as monitoring and evaluation.

995 citizens participated in civil society training, citizens organizing, project management, protectio against natural disasters and contemporary agricultural production.

### Landslides

In February and March 2015, within the emergency support programme for citizens affected by floods and landslides, four (4) trainings for protection of livestock and agricultural land, as well as their products in the events of natural disasters and floods were held. Professional Association "Bosper" Tuzla was engaged for the implementation of trainings. A special focus was placed on ecological and economically sustainable production. Additionally, as a result of the education, a chemical analysis of land for 32 farmers was done, which was of special significance for planning the future production of different cultures. Total of 79 citizens (73 male, 5 female) participated in these trainings. In May 2015, three (3) workshops were held in the field of organised action and protection from natural disasters. Focus was placed on measures in an event of natural disasters. The content was mainly about floods, landslides and fire, but it also included draft, heat, snow and industrial disasters. For the purpose of this training, experts in the field of civil protection were engaged. In these trainings participated total of 77 citizens (49 male, 28 female) beneficiaries within the Support Programme for Citizens and Groups of Citizens Affected by Floods and Landslides

### Trainings within the Youth Programme/Youth Bank

The Youth Bank programme (abbreviated YB) is being implemented in five (5) municipalities of the Tuzla Canton (Tuzla, Lukavac, Zivinice, Kalesija and Srebrenik). A total of 195 young people (94 male, 101 female) took part in the YB boards. The average age of board members is 18. During 2015, the YB Boards have held a total of 51 meetings with participation of 720 young people (51% male and 49% female participants). The topics of the YB Board meetings include information on planned activities, plans for street promotions, pre-selection processes and making final decisions on supporting initiatives of youth, organisation of different events, and similar. The meetings are also used to strengthen the capacities of the youth in

737 young people, aged 15-26 years, participated in the training trough the Youth Bank, "Labirint" and Smile for Smile Programme. Through education and practical application of acquired knowledge young people connected with youth organizations and active young people, and made decisions on funding allocation for 54 projects of youth in Tuzla, Lukavac, Srebrenik, Kalesija and Zivinice.

the fields of business organisation (preparation and meeting management, reporting, planning and similar). During 2015, a total of **32 educative workshops** were implemented for the members of the YB board with total cumulative participation of **564 young persons (282 male, 282 female).** Workshops included the following topics: Introductory Workshop on Voluntarism; What is a Youth Bank; Communication Skills; How to Organise an Action; Motivation; Truth Session; My Idea for the YB.

### In addition two trainings have been held for all YB members:

- In April 2015, Introductory Training "How to Make Decisions in the Youth Bank" with a total of 85 persons (48 male, 37 female) participated at the training on the following topics: the principles and methods of YB's operations, team work and democratic decision making, the participants of the training had a task to analyse the community needs and youth problems, to define criteria for submission of project proposals, as well as to define methods of monitoring and evaluation of projects.
- In the period 01-04 August 2015, Educative Summer Camp "Philanthropy and Fund-raising" was implemented in the "Colony" camp in Bosanska Otoka with a total participation of 71 persons (33 male, 38 female). Training topics included familiarisation with the fundamentals of philanthropy and fund-raising. The work with youth was interactive, including audio and video

tools. Youth showed exceptional interest in this topic, which resulted with a clear action plan for the fund-raising campaign targeting individuals and companies in the local community, titled "Be a Hero of Your Community".

Multifunctional Training House for Youth "Labirint" In financial partnership with the Institute for Youth Development Kult (short: Kult) from Sarajevo, the TCF organised and supported the Organisation for Children and Youth "Smile for smile" (abbreviated OZO), through mentorship in establishing the Multifunctional Training House for Youth "Labirint". Thanks to the understanding of the Ministry of Education, Science, Culture and Sports of the Tuzla Canton, as well as management of the Public Institution, Primary School "Simin Han", the loft of the so called "small school" was given at disposal to this project for a period of 7 (seven) years. The initial funds for establishment of the Labirint were secured by the TCF and Kult, from the annual fund planned for development of the OZO and through programme "Training for Professional Staff for the Work with Youth", respectively. Additional funds for set up and furnishing of the Labirint were secured through a targeted fund-raising campaign initiated by the TCF in cooperation with the OZO in February 2015. A total of 17,400 BAM was collected through the campaign from City of Tuzla's authorities, Telecom and individuals and companies from Tuzla. With June 2015, the Labirint became operational and its opening was organised in May 2015 with presence of the Tuzla's Mayor. The public was introduced on the possibility to organise education for youth and other interested groups, with duration of more than one day and a possibility of overnight with 40 beds. Volunteering contribution in establishment of the Labirint was seen from 65 young volunteers (15 male, 50 female) of OZO and a work camp with 15 persons students – volonteers from Germany (11 male, 4 female) was organised in August 2015. By the end of the year, 20 different trainings and activities for youth groups were organised in the Labirint, resulting in a total of 410 (179 male, 231 female) young persons using these facilities.

# 4. CITIZEN'S FORUMS, PUBLIC DISCUSSIONS AND CONFERENCES

TCF has included citizens in the development of its programs and activities, through the decision making commission's, advisory boards and working groups.

Grant Allocation Commission A total of 142 citizens (65 male, 77 female) were involved in the decision making processes through civic commissions and they reached a total of 24 Members of the decisions in 2015. of commissions are citizens different professions, occupations, age and gender and they voluntarily participate in the decision making processes on allocation of funds. The Steering Board and commissions carried out review and evaluation of 355 project proposals seeking support.

Local Groups for Community Development (further in text: LGRZ). All the neighbourhoods involved into the Active Communities Programme have established local groups for community development, made up of representatives of local community councils, centres of culture and leisure centres, schools and non-formal community groups. 394 (271 male, 123 female) citizens participate in work of all 18 LGRZ.

# 4.1. Conferences and Civic Forums

**Civic Conference "Active Citizenship as a Condition for Prosperous Community"** In January 2015, the TCF organised a civic conference with participation of 151 citizens from 18 active communities and members of the Youth Bank Board. The conference was held on the 23/01/2015, at the Dramar Centre in Tuzla. It was a great opportunity for all participants to exchange information on the processes of organising in their communities and projects they had implemented the year before. Through the award of recognitions for

volunteering in the community, the TCF stressed out the engagement of nine (9) most active citizens and one local community. The conference was well visited by the media, thus active citizens and youth from the region of Tuzla were promoted in direct broadcast by local radio and television stations and news portals. We posted several positive stories on our YouTube channel, showing the active members talk about their engagement in the communities and achievements they reach in cooperation with the TCF. This day was also used to promote our publication on supported civic and youth initiatives in five (5) towns of the Tuzla Canton.

The Conference "I am a Hero of My **Community**", held on the 04/12/2015, marked the successful completion of the campaign for promotion of youth activism and collection of funds for youth projects, titled "Be a Hero of your Community 2015". The total number of participants at the conference was 163 (76 male, 87 female) mostly representatives of formal and non-formal groups of youth whose projects had been supported during the campaign, together with representatives of local companies and municipal and city authorities. Members of the Youth Bank boards from Tuzla, Kalesija, Srebrenik and Zivinice were the hosts of the conference. The first part of the conference saw address by the representatives of the TCF and local communities. Dzenita Murgic, a member of the Youth Bank board from Lukavac made the largest impression on the guests by reading her essay titled "I am a Hero of my Community". Namely, this was the winning essay at the internal competition published for the members of the youth bank boards, just before the Youth Bank conference.

Civic Forum "Role of Women in Social Changes". The Forum was organised on

23/12/2015 in Seona, Srebrenik. A panel discussion was organised within the forum with the aim to promote active women and motivate other to take an active part in the community development. This was especially so for

those living in suburban and rural communities of the Tuzla Canton. Women leaders of the TCF, Agora and OZO participated in the panel discussion, along with an advisor from the Freudenberg Foundation. The participants spoke of challenges women in Bosnia and Herzegovina are faced with, as well as the

# 4.2. Community Vital Projects Study on Quality of Living "Vital Signs 2015/2016"

The TCF started a new survey on quality of living, "Vital Signs 2015/2016" in October 2015. Until the end of the year, cooperation was established with the School of Social Welfare, whose representative will be an adviser for the study (professor PhD Hariz Saric). Additionally, more than 30 institutions have been contacted and meetings were held with 22 experts who were invited to become members of the Expert Group. Memorandums of understanding were signed with seven (7) institutions and organisations by December 2015. The first meeting of the Expert Group was held on 22/12/2015, with participation of 19 representatives of institutions and organisations who accepted offered cooperation in the study. The group of experts carried out an overview of the indicator base for 12 fields of the study: Belonging and Leadership, Education and Life-

long Learning, Culture and Arts, Gap between rich and poor, Work and Employment, Health & Recreation, Housing, Sense of Security, Starting in the Community, Environment, Local mobility, Economy and Entrepreneurship.

### Looking after Stray Dogs in the City of Tuzla Initiative

FTZ has continued with the project "Looking after Stray Dogs in the City of Tuzla" in 2015. During the project, a Work Group of the project was established involving a total of 17 (6 male, 11 female) representatives of relevant institutions (representatives of Department of Communal Services and Civil Protection Service, Public Company "Komunalac", Public Company Veterinary Station of Tuzla, Public Health Institution, Association of Citizens "Nirina", Centre of Ecology and Energy, veterinary department

of the Mixed Secondary School Tuzla, and the TCF). During 2015, a total of three (3) working meetings were organised in order to share information on implemented activities and results achieved in terms of controlling the number of dogs in the City of Tuzla. At the beginning of the year, the TCF started an information campaign with jingles and media appearances on responsible ownership and necessary regular registration of dogs. The Register of Dogs is placed at the Public Institution Veterinary Station of Tuzla for which the TCF provided funds to also establish the electronic Register of Dogs in order to have an easier monitoring of the number of all dogs (including owned, hunting and from asylum). The TCF has additionally organised educational workshops in seven (7) primary schools and local communities in Tuzla with participation of 625 children, youth and citizens. The project provided support to the Association of Citizens "Nirina", managing a temporary Dogs' Shelter in Tuzla with more than 700 dogs.

methods to initiate women to be more engaged in the community. After the Forum, preconditions were created to strengthen a group of women in Seona and to increase the number of active women in the TCF's programme of community development.

The support is aimed to strengthen the capacities of the Association for the purpose of increasing the number of dogs adopted from the shelter. The project donor is Global Fund for Community Foundations.

# 5. FINANCIAL SUPPORT OF CIVIC INITIATIVES AND PROJECTS

In 2015, the support to civil society organisations, institutions and civic groups took place in three regular support programmes:

- Support to Community Development Programme
- Youth Support programme
- Programme of support to open education

Additional financial support was implemented through the intervention **Programme for rehabilitation of damages caused by floods and landslides.** 

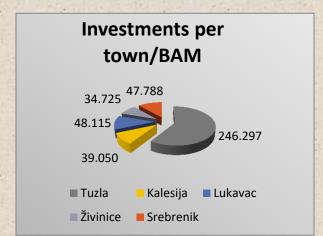

In addition, FTZ has provided services to donors through several philanthropic funds:

- Scholarship fund "Vitalis" for talented young sports persons
- Thematic Eko Fond Butro Srebrenik
- Advised fund "Dokanj in our Hearts and Souls"
- Advised fund for the Home for Children without Parental Care

In 2015, the TCF distributed 416,446.00 BAM through its support programmes to a total of 168 civic projects, including the youth ones. A total of 3,861 persons took part in implementation of those projects, while the number of beneficiaries will be above 68,000 people.

Out of the total fund of the distributed funds, 71,479.00 BAM were collected from local sources through fund-raising campaigns resulting in donations from individuals and companies, as well as through contracts of cooperation with local authorities and applicants' contributions. If we take into the account the value of volunteering and means invested by the activists themselves into the project implementation, the total value of civic projects in 2015 are in the amounts to more than 700,000.00 BAM.

Visible Change in the Community The largest effects of the work and investments of the TCF

in the community development through grants is seen in motivating citizens to active participation and socially beneficial work for the benefit of the community they live in. Additional effects are seen through changes that took place in the local community thanks to the given investments. More than 50% of projects supported in this year fall into the category of infrastructure, mainly due to investments through programme of rehabilitation of damages caused by floods and landslides, including 27 interventions on projects of regulation of rainfall water currents, river beds. prevention landslides. of rehabilitation of school premises, bridges and drainage of housing units.

When talking about the infrastructural projects supported in this year, we must emphasise the support from TCF to rehabilitation of community centres. Through a specific Fund for Community Centres, **five (5) community centres have been rehabilitated** during this year, in five (5) neighbourhoods. The total value of the support was **41,550.00 BAM.** In addition, another eight (8) community spaces were partially or fully rehabilitated through projects supported through other funds, including furnishing of the training house for youth, "Labirint". All of the rehabilitated spaces are located in suburban or rural neighbourhoods and. as such, they present the centre of the social life of those communities.

# 5.1. Financial Support within the Community Development Programme

In 2015, a total of 130,318.00 BAM was allocated through the Community Development programme to fund 41 projects (including institutional support to the MAZ). The total value of all projects, including the citizens' investment and their volunteering, amounts to 239,120.00 BAM. The funds were distributed through four funds: "I Love Tuzla" Fund, Active Communities Fund, Community Spaces Fund and Institutional Fund for Development of Partner Organisations. A total of 1,255 volunteers / activists participated in implementation of projects, and the benefits will be felt by about 39,360 persons in the area of all five municipalities where the TCF is active (Tuzla, Lukavac, Srebrenik, Zivinice, Kalesija). The list of supported projects including their descriptions is given in the Annex to this report.

**"I Love Tuzla" Fund** The total support amounted to 22,178.00 BAM for 13 civic projects; nine (9) associations and four (4) non-formal groups from the area of the City of Tuzla with the aim to improve the conditions of living. A total of 250 volunteers / activists participated in implementation of projects, and the benefits will be felt by about 16,427 persons. The projects supported through this fund fall into the categories of infrastructure (5), entrepreneurship (3), culture (2), environment (1), health protection (1) and sports (1).

Active Communities Fund A total of 55,363.00 BAM were allocated for 25 active communities' projects on the area of five (5) towns of the Tuzla Canton. The total value of the projects, including participation of the applicants, amounts to 105,209.00 BAM. As many as 22 projects have a goal to solve problems of infrastructural nature, and only three (3) falls into other categories. This data indicates that the state of infrastructure in our active communities is rather poor and that the citizens are mostly interested to solve these problems first, in order to improve the living conditions. This is particularly related to community centres and reading rooms, school, sewerage and sport fields. The projects will be implemented in the area of 15 active communities.

**Community Spaces Fund** With the aim to provide conditions for organisation of social, cultural events and conditions for organised activities of citizens in peripheral communities, the TCF supported rehabilitation of five (5) community centres in five (5) municipalities this year. The funds in the amount of 41,550.00 BAM were allocated for reconstruction of the following community centres:

- Community centre Bikodze, Lukavac Municipality
- Youth centre Tinja, Srebrenik Municipality
- Community centre Gornje Zivinice, Zivinice Municipality

- Community Centre Hrasno Donje, Kalesija Municipality
- Reading room Poljana-Kiseljak, Tuzla City

If we take into the account the citizens' participation, then the total value of these projects amounts to 60,000.00 BAM. A total of 220 volunteers / activists will participate in implementation of these projects, and the benefits will be felt by about 4,600 persons. Community centres and reading rooms in these neighbourhoods present the only place where citizens can gather and they are the only resource for improvement of the social life of the community. Therefore, the TCF was ready to invest into these premises in order for them to become places where local democracy and open education can be strengthened, and where positive social values can be cherished.

# 5.2. Financial Support within the Youth Program

The Youth Program included the support to youth initiatives in the five (5) municipalities through the Youth Bank program, as well as institutional support to OZO in 2015. The total amount of **64,388.88 BAM** for 55 youth projects was allocated, out of which 10,138.58 was for the support of the OZO. A total of **1,188 young persons** participated in implementation of these projects. The benefits will be felt by more than **12,397 young persons**. The total value of the youth projects, including participation of the applicants, amounts to 93,771.50 BAM. The majority of the approved projects are related to rehabilitation of sports fields, children's playgrounds and premises for the work of organisations. It is important to emphasise that there is a somewhat larger number of projects in the field of education. The list of supported projects including their descriptions is given in the Annex to this report.

**Youth Fund, Youth Bank** The support was allocated to 31 non-formal group and 23 youth organisations and associations in five cities of Tuzla Canton according to following table. Supported projects fall into the following areas of operation: infrastructure (28), education (8), culture (8), ecology (5), health (3) and promotion of voluntarism (2).

Table 3. Breakdown of Financial Support through the Youth Fund in 5 targeted cities

**Institutional Support to Organisation for Children and Youth "Smile for smile" (abbreviated OZO)** During 2015, the TCF continued to provide financial and organisational support to development and self-sustainability of the OZO. During the year, the TCF participated in negotiations with the City of Tuzla and Ministry of Education, Science, Culture and Sports of the Tuzla Canton (MONKS), with the aim to ensure premises for the OZO's work. These meetings resulted with signing of the Memorandum of understanding about use of premises in the Youth Centre between the OZO and the Youth Centre Tuzla,

as well as signing of the Lease Contract for premises at the Public Institution Primary School Simin Han, between the OZO and MONKS. Following the above, the OZO moved out from the TCF's offices in December 2015. This was our joint plan towards achievement of the OZO's self-sustainability. In the past year, OZO is recognized and by other donors, such as World Vision, In Foundation, and BH Telecom Company.

# 5.3. Financial Support within the Open Education Program

Financial support through the Open Education Program is seen through provision of support to the open schools' project in the City of Tuzla, through the Open Schools' fund, and in provision of dedicated support for institutional development of the Agora and MIOS. A total of 31,136.00 BAM was distributed through this fund. There are 379 citizens engaged in the project implementation. The benefits from the supported projects will be felt by 7,280 persons.

**Open Schools Fund in Tuzla** In 2015, a total of seven (7) projects were supported through this fund, in five (5) primary and two (2) secondary schools. A total of 305 activists (students, teachers and parents) participated in implementation of the projects, while the benefits will be felt by more than 5,000 persons. The list of supported projects including their descriptions is given in the Annex to this report.

# **Grants for Institutional Development**

<u>Development of the Agora Centre</u> As one of founders of the Association of Citizens "Agora", the TCF provided direct support to the development of the Agora Centre in 2015, too. In 2015, the Agora made a direct partnership with the ABF Vastra Gorland. Their funds provided engagement of two persons for implementation of different activities in the centre. A part of the funds for operational expenses were provided through the institutional grant by the TCF, but the Agora provided additional funds from the Tuzla City, Telecom and Mozaik, too. Through participation at the Mozaik Academy of Selfsustainability, the Agora has additionally strengthened its capacities in strategic planning and fund-raising for sustainability of their work. During the year, the Agora organised a fundraising campaign titled "Put your Mind to the Maximum", in order to pursue further reconstruction of the attic and to systematise programmes of non-formal courses at the Agora. More about the work of the Agora can be followed on www.agoracentar.org.

Partnership with the International Association "Interactive Open Schools" (abbreviated: MIOS Tuzla). In 2015, the TCF continued developing partnership with the MIOS with the aim of developing open schools in the community, at the area of the Tuzla Canton. The partnership has been ongoing since 2006 thanks to the support on annual basis from the Freudenberg Foundation from Germany. During the year, the TCF and MIOS regularly exchanged information from the field, i.e. schools included in the MIOS' network, and those addressing the TCF with requests for assistance through the Open Schools' Fund. The MIOS' Director participated in the meetings of the commission for allocation of grants for the open schools. More information about the work of MIOS can be followed on www.ioskole.net.

### 5.4. Other Financial Support

Emergency Fund for Rehabilitation of Damages Caused by Floods and Landslides Almost a half of the total allocated funds in 2015 were allocated through the programme for rehabilitation of damages caused by floods and landslides. Emergency Programme for Rehabilitation of Damages Caused by Floods and Landslides was implemented until mid-2015. The main goal of this programme was to provide support to the imperilled citizens in overcoming the damages caused by floods, with the focus on rehabilitation of damages on infrastructure in rural neighbourhoods and support to agricultural producers who suffered damages caused by floods. Within the programme we allocated 104,305.00 BAM for rehabilitation of 27 projects focused on infrastructure, and 30,000.00 BAM for the support to 59 farmers. A total of 571 persons took part in implementation of this project as volunteers. Some of the more important rehabilitation works in the field of infrastructure include: six (6) sections of river beds, six (6) regulations of rainfall waters, rehabilitation of two (2) bridges and rehabilitation of classrooms in two (2) schools. All of the projects have been successfully completed and control, monitoring and follow-up of implementation was carried out by three associates who are civil engineers by profession. In addition to financial support, activists and farmers received an opportunity to attend educational workshops on topics related to organic production, contemporary fruit-growing, cattle-breeding, production in greenhouses and organised action in an event of natural disaster. It is evaluated that more than 7,700 persons benefited from these projects. The list of supported projects including their descriptions is given in the Annex to this report.

**Scholarship Fund "Vitalis"** For the past three years, this thematic fund had a role to promote healthy living style through sports. With the aim to strengthen Tuzla's sports and empower young sports talents, three (3) scholarships in the amount of 950.00 BAM per scholar have been awarded this year, too. The scholarships were awarded to: Emir Cerkezovic (OKK Slyboda Tuzla), Rusmir Malkocevic (AK Slyboda Tehnograd),Edin Gutic (STK Kreka Edelex). A total of eight (8) applications had been received to the open call. The founder of this fund, Mr Colic, is happy with the selection and results of the supported talents and the method of the TCF's work, and has announced continuation of his support through the Vitalis Fund in the next three (3) years.

Advised Fund "Eko Fond Butro". The first private fund from the area of Srebrenik Municipality is directed towards supporting environmental projects in this municipality. A total of five (5) small projects were supported with the amount of 2,818.00 BAM. A total of 130 persons participated in these projects providing benefits to 960 persons. The list of supported projects including their descriptions is given in the Annex to this report.

Advised Fund "Dokanj in our Hearts and Souls". The founders of this fund are citizens of Dokanj and surrounding villages. Collected funds are

directed into construction of toilet facilities in the Community Centre of the local community Dokanj in the amount of 4,300.00 BAM, while the remaining funds were provided by the authorities of the City of Tuzla.

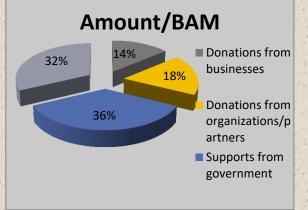

**Dedicated fund for the Home for Children without Parental Care** The fund is open by funds of this institution volonteers. In 2015, a total of 5,500.00 BAM was allocated for two (2) projects implemented by personnel and protegees of the Home for Children without Parental Care. Within the first project, the floors were done in 12 bedrooms and three (3) dinning rooms, while the second one funded painting of the walls in the same rooms. Five (5) persons participated in management of this project, while benefits will be felt by 34 protegees of the Home.

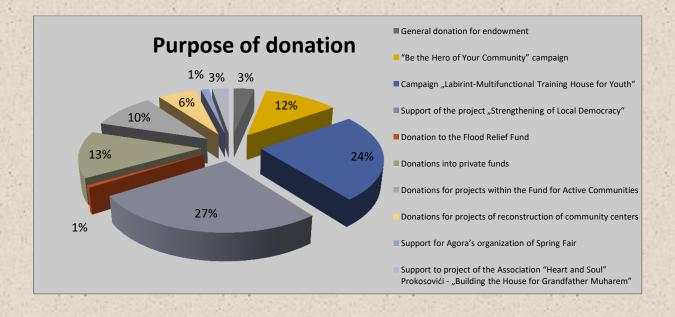

# 6. SUPPORT FROM LOCAL SOURCES AND DEVELOPMENT OF PHILANTHROPHY

The TCF attempted to improve and modernise services towards local donors, i.e. to make it easier to invest into the community development and civic sector through use of the FZT. Namely, in addition to the model of established funds, duuring 2015, the TCF improved the possibility of on-line donation through the ammado platform, which can be accessed through the new web page.

In 2015, the Foundation has organized several fundraising campaigns for collecting funds from the local community, individually and in cooperation with interested groups of citizens. In addition to the

members of the Executive Board members of the YB team and activists from the Active Communities Network have also been involved in these activities. They visited individuals and companies and contacted diaspora because of the needs to co-finance a certain amount of funds for a specific projects and campaigns.

**Fund-raising Campaign for Furnishing and Opening of the Multifunctional Training House for Youth** - **LABIRINT** Funds planned by the TCF for institutional support to OzO for 2015 have been redirected to support in furnishing of LABIRINT, in the amount of 7,000.00 BAM. The campaign also received support from the Institute for Youth Development KULT, with 5,389.00 BAM, World Vision, ADP Majevica with 2,000.00 BAM,City of Tuzla with 6,500.00 BAM, BH Telecom with 1,000.00 BAM and Input Itd. with 100.00 BAM. Organisation for Children and Youth "Smile for smile" allocated its own funds in the amount of at least 2,000.00 BAM and there were a total of 175 individuals who donated in services, equipment and 1,758.00 BAM in cash. It is important to mention the donation in services granted by the SENEX Itd., in the amount of 2,200.00 BAM. The total amount of funds invested into furnishing of the training house is at least 20,000.00 BAM. The total gathered funds were invested into rehabilitation and adjustment of the training house for its intended use. Furnished and attuned training house for youth can be seen at the YouTube channel of the TCF.

The goal of the campaign of the TCF Titled "Be the Hero of Your Community" was to influence on improvement of living environment of the youth from the areas of Kalesija, Zivinice, Lukavac and Srebrenik Municipalities, and the City of Tuzla, through stimulation of youth on activism and to network protagonists who make the life of a community. The campaign's official start was on the 12<sup>th</sup> of August, on the International Day of Youth, by visits to representatives of local authorities and reception at the Prime Minister of the Tuzla Canton Government. It ended on the 4<sup>th</sup> of December, on the eve of the International Day of Volunteers, by the conference "I am the Hero of My Community". In parallel with the promotional activities, we implemented lybbying activities with local companies to include them in the campaign. Quantitative indicators for the campaign's success are the following: 15 companies increased the Youth Fund of the TCF with their participation of total of 3,400.00 BAM; more than 500 individuals supported the campaign with the total amount of 5,480.00 BAM; with partner foundations from abroad and municipal administrations of Lukavac, Srebrenik, Zivinice and Kalesija, the TCF secured 24,748.00 BAM; a total of 33,628.00 BAM was secured for the support to youth projects; a total of 25 youth projects were funded in the area of Tuzla, Lukavac, Zivinice, Srebrenik and Kalesija, providing benefits to more than 1,500 young persons. There were five (5) promotional events held in the communities titled "Treasure Search", within the campaign "Be the Hero of Your Community". Young applicants, five (5) groups from each, Tuzla, Kalesija, Zivinice, Srebrenik and Lukavac, visited 15 companies and presented their ideas. At the end of the day of visiting companies, the applicants participated in the promotional event where the representatives of the companies announced their decision on the amount of support for the projects, by symbolic distribution of gold coins.Implementation of the event was technically supported by the members of the hoard each in their own place of residence

# 7. PROMOTION OF PHILANHROPY AND CIVIC SECTOR ACTIVITIES

The TCF continued to promote philanthropy and civic sector activities. In addition to media promotion during the fund-raising campaigns, the public was presented with the financial support programmes, there were articles published and media promotion was carried out for the projects and initiatives implemented and supported by the TCF in 2015. The results of the supported projects are visible and well accepted by the public. In this manner, we attempted to improve perception and image of the civic sector in the Tuzla Canton.

**Web Page** Along the use of its new identity during the first half of 2015, the TCF started using a new, redesigned web page. The most read texts in the second half of 2015 were positive stories on winners of grants from the regular support programs, and scholarship winners.

**Newsletter** The TCF's Newsletter was distributed four times: spring, summer, autumn and winter, to approximately 1,200 emails addresses. It was intended for the persons of different age groups and representatives of different institutions and organisations to gain a more retrospective overview of information on the TCF activities during the year.

**Social Networks** The work of the TCF is actively followed on social networks and communication there is more direct and faster, and it is more flexible in view of content being published. Sometimes, it is even more intimate, due to communication through comments.

**YouTube Channel** We also use YouTube channel for promotional purposes, and there are materials promoting our campaigns and / or activities. For example, video for the campaign "Be the Hero of Your Community" same as thematic programmes on the project Taking Care of Stray Dogs in the City of Tuzla.

**Visibility in Other Media (radio, television, newspapers)** There were more than 150 affirmative articles / stories on the TCF's work and activities published in electronic, print and on-line media. The best visibility of the TCF in media is achieved through specific projects and promotional campaigns. Therefore, the following topics were especially visible in 2015: promotion of civic activism through the "Conference of Active Communities", promotion of "Registration of Owned Dogs in the City of Tuzla", presenting examples of projects within the Programme of Rehabilitation of Damages Caused by Floods, promotion of beneficiaries and donors of private funds Eko Fond Butro and Vitalis Fund, promotion of school projects within the Open Schools Fund, and excellent promotional campaigns: "Be the Hero of Your Community" and "Multifunctional House of Youth Labirint".

# 8. NETWORKING

During the past year, the TCF presented its work and participated in discussions in the field of sustainability of the civic sector's work, development of philanthropy and active citizenship to national and international networks and during individual contacts with the authorities, similar foundations and civic society organisations.

Some of the most important networking activities are:

- On 08/09/2015, the Centres of Civil Initiatives (CCI) organised a round table in Sarajevo titled "Public Foundations; Chance for Civic Society Development in Bosnia and Herzegovina", with the aim to discuss development of a national foundation for support to the civic sector in Bosnia and Herzegovina, where the said would be founded from games of chance. Negotiations between CCI and relevant ministries on entity and state levels with the aim to talk about the possible model of a national foundation for civil sector development were announced. The round table saw participation of some 20 representatives of domestic associations and foundations.
- On 06/03/2015, the TCF was visited by colleagues Branka Rajner (director) and Ivana-Gordana Zloic (financial manager) from the Community Foundation "Slagalica" from Osijek. The goal of their visit was to exchange information and experiences in the field of grant giving and fund development.
- The Centre for Promotion of Civic Society (CPCD) organised a round table titled: "Financial Transparency of the Civic Society Organisations", held on the 17/06/2015 in Tuzla. Discussion on the topic of transparency of CSOs saw participation of about 30 persons.

- The TCF presented its experiences and best practices in cooperation with local donors at the TACSO conference "Philanthropy in the Western Balkans and Turkey: Investment in the Future", held in the period 24-27/11/2015 in Belgrade, Serbia. The conference posed significant questions related to development of an environment motivating to development of philanthropy in Bosnia and Herzegovina and other countries in the surrounding.
- At the TACSO Conference titled "Forum of Partnership Supporting Cooperation Between Companies and Civic Society Organisations" held on 17-18/12/2015 in Sarajevo the TCF presented experience and best practices in cooperation with the business sector in Tuzla Canton. The Forum of Partnership dealt with topics related to sustainability of the civic society, partnerships and the role of business sector and media in development of sustainable CSOs and local communities.
- In Sarajevo, on December 22, 2015, TCF participated in the networking meeting that was organized by The Olof Palme International Center. There were total of 26 participants from 9 organizations. TCF representatives (two of them) presented the accomplished results in previous year and challenges for future.
- The TCF has been involved in coalition for civic dialogue and advocacy campaign for creation of a supporting environment for strengthening of individual and corporative philanthropy in Bosnia and Herzegovina. There were talks about modification of provisions in several laws by which the environment for development of philanthropy could be improved. CSPC Sarajevo coordinates the Coalition and will pass reached conclusions to the relevant ministries in BiH.

# 9. COOPERATION AND DEVELOPMENT OF PERSONNEL AND VOLUNTEERS

GEF Conference, 29.09.-02.10.2015., Istanbul, Turkey Creation of equal opportunities and impact of the incoming clasiffications. NGO and Business Audit d.o.o. Sarajevo Audit and Consulting Company

#### 2. INDEPENDENT AUDITOR'S OPINION

#### Introduction

We have audited the accompanying Balance Sheet and Loss and Profit Account of the Tuzla Community Foundation, Tuzla, Pozorišna 13, as of December 31, 2015, and the related statements on cash flows for the period ending December 31, 2015.

#### Management Responsibility for financial statements

Management of the Foundation is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement and that the result of fraud or error, selecting and applying appropriate accounting policies and accounting estimates that are appropriate in the circumstances.

#### Auditor responsibility

Our responsibility is to express an opinion on these financial statements based on our audit . We conducted our audit in accordance with International Standards on Auditing as prescribed by the International Federation of Accountants. Those standards require that we comply with ethical requirements of the profession, and to perform the audit in such a way as to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether caused by error or a fraud. The risk assessment considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate to the circumstances , but not for the purpose of expressing an opinion on the effectiveness of internal controls .

#### Opinion

In our opinion, based on the audit performed, the above financial statements give a true and fair view, in all material respects, of the financial position of the Tuzla Community Foundation, Tuzla as of December 31, 2015, and of its financial performance and cash flows for 2015, in accordance with the generally accepted accounting standards.

primary school Prokosovici. Installation of adequate PVC doors and windows in school toilet rooms is predicted of TFC donor funds, while other materials and all service work, such as old walls demolition, water and electrical installation, new walls installation, tiles and sanitary equipment installation will be done by craftsman and community volunteers/activists. With the project realization, optimal conditions for teaching and learning will be created as well as day by day staying of children and teachers in primary school Prokosovic premises.

Activists from Local development group Seona came up with an idea to repair hiking/hunting lodge Ratis with joint forces. Door installation, finishing and plastering of walls, then floors and stairway tiles installation will be done by activists/volonteers. Additionaly, signs the lodge doesn't have adequate furniture, wooden tables and chairs will be bought from collected personal donations and project funds. After completion of the voluntary actions, organization of two days visit to the hunting lodge for the local residents will follow, then school class in nature for the school pupils, the hunter's lunch organized by hunters and lecture about wild animals. In addition, one day will be devoted to "Folklore in nature" event, "Kotlicijada" (food preparation in a kettle) as well as the presentation of domestic food prepared by members of the Eco-Seona Ratis and women from Seona. This way all community will be activated to participate in project activities, adequate and attractive space in nature will be provided for the local residents and can be used on daily bases.

The project idea is about the facility reconstruction that is associated with the branch school in Lisovic and for some time was not in use, although it was of great importance for the inhabitants of MZ Lisovici. UM "Ljiljan" as a result of not owning its own premises has decided to repair this facility and make it useful for young people from this region and the wider community. This way workconditions for many associations and LC Concil will be created as well as the place for gathering and socializing of young people. In the inicial phase the meber of association will work on adaptation and renovation of two premises in the facility, cleaning actions and replacing the old windows and doors. Afterwards will renovate the entrance into the facility, flooring and walls. In the final stage, after all rough work, the association will place office furniture received from the Local Community for use and in that condition will be in service of young and interested citizens of their community.

The project of lighting from the school in D. Vukovije to the central school in Vukovije has started two years ago and until now have managed to collect funds from TCF but for the portion of mentioned relation. The rest of lighting will be completed within this project. There are still 25 pole places to be installed and thus all project will be completed which was primarily started because of pupils (from 6th to 9th grade) who walk from D. Vukovije to central school in G. Vukovije. The school area is only for the pupils until the 5th grade. They find that the children are in danger considering that drivers are not so cautious as much as they should. According to data, on this section of road in the last 3 years 19 accidents happened, injured were mostly children. Solution of this problem will greatly facilitate the movement of schoolchildren on this line and increase their security by illuminating section of road from school to school.

This is a long term project and focus is on action towards the institutions and individuals that can help to solve problems in the community which refers to reconstruction of educational institution - Primary School in Prokosovici. The school was built back in 1954., and since then there was no investment except few days ago woodwork replacement - the entrance door. Another very serious problem is that the school is covered with asbestos plates, which are proven that after a certain time of existence become cancerous. School has 200 students, and the classes are organized by 40 teachers. The aim of the project is that the authiorities are familiar with the cosequences of abandonet school like this. Project activitists plan is to include the wider community and all schools in the municipality of Lukavac that have the same problem, and Local Community population in which they work, also the schools to join in resolving this problem, include individuals which have knowledge of working condition hazards in educational institutions, prepare brochures about school hazards faced by students, employees and residents about asbestos roofing, organize several workshops about this issue and try to obtain from the relevant ministries to address this problem.

Local development group Vukovije Donje trough conversation with the residents and representatives of nongovernmental organizations came to the conclusion that the bigest problem in the Community is lacke of space for social activities, associations and public enterprises activities. The only space for this issue is the Cultural Center, which is one of the priority to be reconstructed. The project aims to begin the reconstruction of the social center in order to make centar of social life in Donje Vukovije. Considering that the building is in abandonet condition it is necessary to include many subjects to help its planning and construction. Refer to this activities are planned that will include meetings with companies and leaders of political parties, production of 4 models of the desired appearance of the Cultural Center, as well as promotional material with visual appearance of the Cultural Center and description of the necessary construction work. 3D presentation of the project has planned.

The project includes a series of advocacy activities directed at resolving the problem of Primary School Serici facility. Central School object for LC Suha, Serici and Priluk attended by students from 1. to 9. grade, 570 total students, and 46 teachers held the classes. This facility was built in 60-ies, it is assembly character and is currently in a very bad condition. It was released in 1968, and as it is assembly character (low quality constraction material) exparation date is 40 years, so the lifetime of the facility expired in 2008. With this project Local Development Group Serici Priluk wants to to advocate the competent authorities to solve the problem of the school (renovation of the existing building or build a new one). The project aims to create the conditions for quality and safe implementation of educational process in the central primary school "Serici" in Serici, through its action on Municipal and Cantonal authorities.

Renovation of social space "Reading Room Poljana" that for many years has not been used, the functional space for organizing social activities in the community was obtained. By voluntary engagement of residents the facility was painted inside, toilet and small tee kichen were renovated, necessery work furniture and items for activity organization were purchased (tables and chairs, projection screen, projector). Two rooms are ready to be used by citizens and active groups with which the local community has already established cooperation. So far four groups appeared that will implement their regular activities and obligations in the newly renovated premises , which justifiy the community needs to put facility again in function.

Youth Association Tinja with realization of this project has provided fully functional work premises for many groups and active citizens participation in social events of the local community Tinja Gornja. Completely worn out floor was renovated and the new lighting was installed. Toilet was repaired, doors and windows were replaced, installation of new tiles, intallation of toilets and installation of necessery elements were done. In the final stage of the social center renovation, complete facility was painted, so the facility has a new look and glow.

A group of young people took the initiative and renovate a portion of the marble surface which was destroyed due to weather condition and other predicament, then set up the lighting system so that a significant facility would not be the darkest part of Tinja that was often visited by undesirable guests. They also did lightening of marble slab where the names of fallen soldiers are. Corrosion was removed, chain was painted and small poles were painted that look like a fence and giving particular esthetics to this object. The water supply system was enabled which was installed with the construction of the building but unfortunately due to the irresponsibility of specific individuals was abolished.

NG Youth activists Bjelave want to rearrange the court that was used for many years as the main entertainment for youth and old people of our place, but after the flood in 2007 part of the court was destroyed and after that was not in function until now, with the implementation of this project the coart will be upgraded to a higher level considering that we will provide to youth and old people a place for entertainment, rest and recreation, actualy place where the children will be off the road.

The caves in Babunovici are in very bed condition which implies difficult access and entrance to the cave. Roads to the caves are overgrown with grass and high vegetation. Most of the caves are covered with garbage in front of the entrance and inside the caves. This condition is from ecological, recreational, tourist and every other aspect unacceptable. Since no one in particular does not take care of it, it was given today's look. All this contributes to human negligence and responsibility to mother nature, so the small garbage dums were created. After successful implementation of the project were able to improve the appearance of the site. They raised awareness of the importance of making the environment beautiful and clean to be more attractive for more tourists.

Trough this project YA Mladost Gnojnica would like to solve the problem of no efficient operation of the riverbed along the LC that due to rainfall fails to control a large amount of water. Because of this problem water floods the surrounding area and goes to the local people private places and makes immeasurable damage. Also due to the large drifts of garbage creates one inappropriate image of people attitudes toward nature, so they would like to raise the awareness of citizens and the surrounding population about the importance of nature preservation. The urgency of solving this problem lies in the fact that part of the river bed passes along the Elementary School Gnojnica, and thus undermine the security and appearance of the schoolyard. This way we want to protect our children, there is a reasonable risk to the health of children attending primary school Gnojnica because of the existence of various wastes.

Youth Association Kruna would like to create a community space for all populations, both for residents of our local communities, and those who visit our local community. In addition, they aim to launch the spirit of sport and physical readiness and skills. The main goal is to create a sports and recreation area, both for the young and the elderly population. Youth who spend several hours daily at that place will have a nicer, more comfortable and productive space, and elderly will constructively spend their time through the precious game chess.

Through this project, members of the Rotary Club Lukavac have informed the citizens and tourists about all existing cultural-historical and tourist facilities in our Community. In many respects this project helps in the overall brightness as well as the better orderliness of Lukavac. This way they promote their Municipality and also one step ahead has been made compairing to other Municipalities without map. In Lukavac Municipality has a lot to present, this has encouraged trough implementation of this project, and achieved the long-term effect on the economy and trade in Lukavac Municipality.

Through this project CA Small World wants to enable rehabilitation and education of children and parents, and to make this possible it is necessary to create an improved working conditions. The Association facility currently does not have enough isolated premises. Through this project necessery material for rooms partition would be provided , and more rooms for individual work would be built and thus provided a better rehabilitation for children in the autistic spectrum through the usage of modern therapeutic methods (ABA, Floor time, PECS, TEACCH, LANGUAGE). In addition purchasing of new front door the security problem of material and equipment placed in the Assosiation facility would be solved. The overall project goal is to achive better work results with children in the autistic spectrum and to improve their competencies that will enable them to integrate into regular educational system and the community.

This project directly solves miserable status of children in Breza settlement. In fact, there are major barriers to quality of educational children life, but what stands out as a priority in this neighborhood is a need of safe place for children to grow up safely and securely (playground). This project has the task to animate young people from the area of Kiseljak and Lubace, and also to provide the conditions with their own labor actions building the playground for children with the necessary game elements.

YRC believes that a very small investment in sport by the government at all levels and their idea responds to the needs of young sportists in the City of Tuzla. One of the project goals is to develop a love and tendencies for the sport, movement and other physical activities. After sets of education users will have the opportunity to participate in organized sports activities, both for male and for female.

Health care workers have to face with the various situations in their profession, particularly with taboo topics. The aim of this project is breaking the taboo topics that usually appears in among high school students, which is sexuall education. This project has a dual role, in one hand young people responsible for workshops will practice to transfer the acquired knowledge to others, while on the other hand young people in the workshop will be more interesting and will be more natural to listen their peers sharing advices and instructions.

With promotion of the World Day of Kindness, on Nov. 13th, will encourage young people in an interesting way to share the happiness, kindness and smiles. Through the challenge of collecting signatures on t-shirts, young people will have the opportunity to brighten up the day to all passers in the City. The most successful will be faced with a new challenge: Be nice 24h! This challenge will take place in Konjuh. A group of 10 young people will have the opportunity to show and prove that there is truly a chain of kindness, good things come to those who do good. At various locations in Tuzla OI Krin will interview the citizens on the subject of Kindness with questions such as: "Do you remember when someone has done something nice for you?". In addition, there will be a workshop with aim of making the value flower, promotion of creative flower will be organized on November 16th, the International Day of Tolerance.

31	Tuzla	Infrastructure	NG "Bar Gravity"-	"Street Workout"	1.550	1.350	200	9	80	
This way, there is a possibility offered to engage in recreational and professional physical activities in nature, in the fresh										
air	air with the positive atmosphere that prevails during training. The group of young men working to increase awareness of									
young people about the importance of physical exercise and provide education about the importance of their body										

develop in accordance with age. The advantage of this type of exercise is that it is free, it can be practiced by all age categories. The task of the organizing team is to offer young people a new form of exercise called "Street Workout", and to try to get them off the streets of various vices (smoking, drugs and alcohol). Also they would like to follow trends in other cities across the Europe and Bosnia and Herzegovina, who own this type of parks.

oune	state states deloss the Europe and Boshia and Herzegotha, the other this type of parks.

The project consists of two parts. The first part is planned to enclose the children's park on the south side, a distance of about 35m and make a gate in the middle of the entrance to the courtyard. In the end, the entire fence about 70 meters will be painted by all members of the informal group. The second part of the project includes purchase of Bosnian sandals, and slippers for the needs of folklore section. Due to lack of funds for project activities we plan fundraising, the applicants point out that the youngest members in terms of shoes as part of the costume was bad and so far have never had Bosnian sandals and slippers since the establishment of KUD.

This project will support 10 student volunteers with the help of their parents, teachers and friends. Their intantion is to give their own view about problems that concern them and want to contribute to the future development of school. In December, the plan is to hold a public campaign in front of the old building of the music school with the theme of "Tuzla is not sinking, because we do not sink" to promote the importance of music education and informing citizens with daily problems faced by students of this school. Also in the evening during the New Year holidays, as a gift to the city in the town square and the streets a concert will be held by music high school students.

2			PARTICIPATION DE LA	with the idea	the Youth center, to	a grant i	1. 2. 2.		1.10	A March
					make entertainment!"					1.

Trough this project we will solve approaches problem to the Youth Center in Tuzla, and arrange exterior that does not look like a space that encourage young people to stay in this area. In front of this institution is a large parking lot, which does not allow any activities in this area. By placing the benches in this areawe would offer more place for a gathering of young people. Active members of sections and organizations in the Youth center Tuzla have very poor knowledge of each other. Within this project we want to join forces of children and young people from different sections and organizations, and to create a better environment of the Youth center together.

After a long time this year Tuzla was the host for the Festival organization, 54. scientific and technical creativity of young people at the national level. Around 600 students and primary school teachers from all over Bosnia and Herzegovina took a part in three days activities: sports and technical disciplines - drones; airplanes; rockets; boat models and airmodels;

- Exhibits discipline-architecture and construction; engineering; agricultural technology; automatics and robotics, - Practical work and individual testing through the test general technical culture; automatics and robotics; usage of PC in technique etc.

Tuzla Community Foundation supported the organization of this event and designed the Almanac with the results of this event.

School students - Aflatoun club members came up with an idea to arrange the school yard. In the introductory part of the realization of this idea in April, the students - Aflatoun club members held the eco workshops in formal classes to all school students to prepare them for future activities of yard planning and impact on ecological thinking and saving their environment. In the yard new benches and bins (made of concrete pipes) were placed, and at the work actions fence was painted and action of cleaning waste was realized. All students and teachers actively participated in this action and enthusiastically supported realization of this idea.

Within the project the presentation of all secondary schools operating in the city was realized in the final event at the premises of the Gymnasium Ismet Mujezinovic hall. Tuzla City High school Fair was organized with the aim of presenting and approaching the diversity of trades, professions and positions offered by the schools to the future students and their parents. In the organization of this important event all teachers and principals of primary and secondary schools were activated in order to enable the arrival of about 200 primary school students final grades to get familiar with the school profiles and professional titles offering.

The applicants designed to build a botanical garden and arrange the eco park at the back of the school yard. Botanical garden would occupy the space which is currently concrete part of the yard-balcony used by students from 1st to 5th graders of elementary school. This way, instead of the balcony, now they will have an opportunity to directly observe the process of germination, growth and blooming and ripening fruits which they will plant in the garden by themselves. Before the process of preparing plants for planting in the botanical garden students would make a compost and land preparation for seeding, then will follow plants planting and preparation of educational workshops for the entire school students about the importance of ecology and environmental conservation. The whole process would provide practical training to students and the possibility of permanent teaching for pupils in lower grades in school subjects "My environment", and for older students in Biology. Also, at the same time would plant ornamental trees that would create natural shade in the school yard and flower for for a better environment.

The aim of this project is to improve the teaching process at the professional theoretical and especially practical teaching in PI MSSS. On an exact example through creation of Baggy automobile students will learn how to produce parts and assemble automobile. Through teachers mentoring students will have an opportunity to directly study previously passed the theoretical part of the motor vehicle and connect all of that through practical training in this project. After creation of this automobile, students will participate in various exhibitions and scientific and technical fairs and will thus motivate students to participate in school projects and more interest in teaching, as well as the promotion of their work and effort.

The project idea is focused on providing assistance and support to children who grow up in institutional settings (Center for children without parental care) or those that use the Center services with the aim to develop the capacity necessary for life and strengthen the ones they already possessed. The project will be conducted in cooperation with students of Music High School who will lead music workshops for the participants of the project. Another type of workshop will be focused on the development of emotional competence and self-respect. Emotional literacy courses, strengthening the psychological aspects and music therapy will be conducted through these workshops once a week with the aim of improving the quality of life of these children. In the end, joint concert will be organized with students and activists on this project and will present what they have learned and adopted through the above activities. The association came up with an idea after a series of studies that have been conducted in relation to emotional development, self- respect and school achievement of children from different family environment where the results showed that the children of the Center have a significantly lower level of development, self- respect and emotional intelligence than the children who grow up in the family with parents.

The Lukavcic Bridge that leads to the regional school in this local community was broken due to past floods in May and August. The bridge connecting the street that runs through the entire local community to the regional school, this street has a sidewalk, and it is necessary to build the bridge in order to increase safety of children and locals. Intervention was performed by placing a large pipes fi 1000 and fi 1500 and 2000 - 5 pieces. An iron base was created, then conrete structure was made, so that the bridge is safer for pedestrians to pass, and motor vehicles. The works were performed quite well.

The problem was solved with renovation of this bridge which include transportation of citizens, goods and services, and further deterioration of the bridge and thus prevent the asphalt road damage of the bridge. The same bridge was used as the main communication for the 1/3 population of this local community. Quality renovation was done of the undercuts bridge foundations and reinforced concrete wings to direct water. The bridge is solid and connects both sides of the river.

Due to heavy rainfall in May and August 2014. flooding of branch school in LC Orahovica happened twice and both times caused enormous damage to the school building. This is the only school in the wider area, operation of this school is of great importance not only for place Orahovica, it is important for all surrounding villages and their students. With the TCF donation school interior was done, thus broken tiles were replaced that were destroyed during the floods, laminate flooring in classrooms was replaced and classroom walls and ceiling were painted. With the donation of the Lukavac Municipality dispute river stream was repaired that runs close to the school, thus with both donations (TFC and Municipality) can be considered that the flooding problem of branch schools in Orahovica was permanently resolved.

Due to heavy rainfall in August 2014. landslides apeared on the underside of the sport polygon that is part of the Branch School Cage. There is no sports hall in the School, and there is the only sports coart intended for physical education. After consultation with the geologists the excavation of soil was performed to the ,, sliding level ". Then digging drainage channels was performed and installation of drainage rocks. After completion of drainage system, the land was filling with dirt.

Odron na lokalnom putu za Gojcin nastao je usljed izlijevanja rijeke Sprece, te zbog zacepljenja propusta na putu. Urađen je dio propusta, sa betonskim cijevima  $\Phi$ 500, i jedan veci propust sa betoniranim grlom. Kanali nisu ocisceni te je dodatno potrebno izvrsiti ciscenje kanala. Due to river Spreca overflow a landslide on the local road for Gorcin was created, and due to blockage of dranage on the road. A part of dranage was done with a concrete pipes  $\Phi$ 500, and one bigger part was completed with a concrete installation. The channels have not been cleaned and it is additionally necessary to clean them all.

here have been landslides made by latest natural disasters and total road destruction, causing all crops remain untreated due to the inability to aproach to they land. Road works heading to Sadike have been completed in accordance with the prescribed / agreed solution. Representatives of local communities, during the works, provided additional support from the Municipality-Civil Protection, in the form of construction machine. The preventive solution was found, and the road was operational. Since this is a large landslide, completely resolution of this problem requires considerable financial resources. This is a dirt road leading to the farms of farmers, such investments would not be justified.

After rainfall a large number of houses were flooded (20 households). Flooding occurs due to lack of drainage system of rainwater. Since it is a hilly ground construction of drainage channale is of great importance for the village itself. It is about a larger demanding project because of its nature and scope of work is still in the process of realization and it takes time to finish it quality and well. With a joint approches of citizens, Foundation and Local Government quality repairement of this part of road will be done, so that the rainwater will go strait to the sewer system, and then, asphalting of this road section will be performed.

After heavy rainfall due to inability to receive a water, water channels pour out and flood the school environment as well as three residential buildings and create a lot of damage to tenants of these buildings but also the users of the school. With this donation the purchase of new pipes fi 600, 800, and fi 1200 was provided and the problem was solved. The old pipes were taken out and placed a new ones in areas where the drainage system was not regulated, new channels were created and new half of pipes were installed, so the new open type of channel was formed.

After rainfall due to bad rainwater system channels in the street 38.divizije were not able to receive water and the larger quantity of water flooded 5 apartment building basements and caused extensive damage. Puchasing of new pipes fi 800 and fi 1000 was provided and old pipes fi 300 were taken out and replaced with new ones, also digging, cleaning was performed and in one part of the channel pipes were installed which stipulated watercourse. A catchment trough was made that collects water from three canals and takes them to the pipe fi 1000 which then goes into the canal. The existing problem was resolved.

The rainwater system (channel that runs through the village) is adjacent to the sewage and water dranage which in a case of major rainfall flooded the area and all feces spread throughout the village. With this donation, 120 m pipes were installed and water channel was created, also at the places of reclining channel-sewage the pipe fi 1200 is placed and directs the fecal sewage into the existing sewage system. System like this serves as a kind of channel if comes to the appearance of large amount of water. The works were done well.

Due to heavy rainfall the water from the road is flowing and floating in the ground floor of Alma Imamovic's house and the surrounding yard and destroyed the building materials, firewood and small stuff. With the construction of drainage channel around the house and direct water into a stream Mramor the problem of drainage surface and underground water would be solved that threaten buildings in the village, this was implemented as a conceptual design. Dranage system was created around the house and under the object the main drainage channel was created and the water is directed into the stream. By the opinion of civil engineers, works are done well.

The bridge connecting two hamlets Suljagin Sokak and Kasumovice suffered load during the flood and thus caused interruption of transport communication in Donje Poljice. Previously Tuzla community Foundation supported adaptation of this bridge, but a new flood flurry caused the problem again. With this project the river bed has been cleaned and deepened and in the length of two kilometers embankments above the bed was made. River gravel was used for the construction of river belt. The bridge was repaired, and the bridge stand was reinforsed to withstand future floods. Also the gravel road has been repaired.

Considering that through entire settlement Gornja Tuzla runs river Jala and the river has its source above the settlement and therefore has a lot of acceleration due to rainfall which caused a huge drifts of wooden logs and crushed stone from the Majevica Mountain and overflowing from unregulated riverbed. It was necessary to clean the river in its lower course through this settlement. It was cleaned and regulated a part of riverbed Jala in a distance of 400m. Housing facilities were secured as well as water, sewer and road infrastructure along the river. Possibility of launching landslides was redused.

Through implementation of the project conditions were created to prevent future flooding of 20 residential buildings, and the same number of economical objects. It is very important in this area to have an embankment to prevent water flow of stream "Krezina bara", which is a branch of the river Spreca. When water level is higher water overflows the stream and flooding residential, farm buildings and agricultural land. 80% of the planned flooded area was repaired. The remaining 20% is not secured by an embankment because the owner of this land did not allow intervention on the part of the river that runs through his property. The quality of work is compliant and designed in a way to protect the flood area of direct impact of water, and also to take accumulated water through the extender (new) channels. Total number of cleaned and built embankment is in length of 300 meters.

Due to landslides Zahir Kovacevic's object-barn and orchard with about 100 seedlings were damaged. The barn is located on unstable land, so the new one needs to be build and orchard needs to be repaired. By the opinion of construction engineers the object is solidly built. The orchard was not repaired due to landslides, so the existing valid seedlings with a new ones family Kovacevic planted on their own new land.

Due to landslides agricultural land and a barn owened by Nedzad Palavric is totally destroyed same as a flock of sheep. Through the efforts of neighbors the barn was partly repaired and the land where potato was grown. The family is very poor, and processing of milk-cheese and livestock (lambs) sells was their only source of income. With the donated funds 6 sheeps and material to repair sheepfold and stable have been purchased, as well as seeds for planting potatoes. The barn was repaired, and after this intervention the locals have joined the funds and buy another sheep for family Palavric.

Marko Kovacevic handles 70 dunums of land and due to floods a substantial yield of grain that was used to feed livestock have been destroyed. He failed to realize the payment of the damage from the Government, thus he was not able to make spring seeding without subsidies and feed the livestock. With donated funds corn seed and concentrate of animal feed was purchased. Hereby with this action is partly supported agriculture in this farm, otherwise Marko would be forced to sell livestock in order to perform semination and to feed livestock.

Mijo Mazic living in difficult financial situation where the only source of income is generated from two cows and agricultural goods, which is used to feed cattle. Due to floods seeding is destroyed, and thus he failed to provide animal feed for the winter time. With donated funds the hay was purchased as well as corn concentrate and thus provided animal feed to feed the cattle until the new planting.

Due to the floods of river Kovacica agricultural yields of 9 locals have been destroyed in returnee settlement PoZarnica. It is about the citizens who live exclusively from agriculture and livestock and require support in the procurement of seeds and animal feed. With this donated funds animal feed was purchased: corn germ, concentrate for milking throat, premix, flour for animal feed and corn. Distribution was performed by the local community representatives. The obtained funds farmers will spend on animal feed and spring seeding.

Due elementary disasters Senaid Imamovic has suffered considerable damage to agricultural land and crops in about 14 dunams (two locations). Senaid lives in the village Mihatovici with his wife, two sons and mother. He has a minimum pension, unemployed wife, one son also unemployed and other son goes to school. His mother is sick and receive a minimum pension. Senaid currently owns two milking cows and two calves. The purchase of seeds would enable to seed areas that are currently covered by drifts of mud and garbage and thus to provide enough food for livestock. With donated funds was purchased:

-clover,

-fertilizer 15x15x15, -fertilizer KAN,

-green peas for grass silage,

-food for cattle,

-wheat for cattle,

-barley for cattle,

After Inspection, land preparation for planting and purchase the above assets was determinated.

Four agricultural producers from these local communities are organized through a system of small craft and perform the purchase and sale of milk. They have suffered the damage to their agricultural goods worth 45 000,00 BAM during the floods (estimate given by the authorities of the Municipality of Srebrenik CP). Necessary funds were needed to purchase seeds, fertilizers and animal feed. With donated funds the seeds, fertilizer and animal feed was purchased. The purchase of assets enabled the farmers to perform spring seeding and cattle food until the next harvest. The continuation of milk production was provided and these families did not have to reduce the number of animals.

In the first cicle farmers were supported to purchase animal feed, however, due to difficult financial situation and fierce winter had to sell part of the sheepflock in order to feed their families. Now they demand resources for the purchase of new sheeps, anyway these users live in difficult conditions. Smaller funds are approved for the purchasing of four sheeps. With obtained funds farmers have bought six female lambs and thus expand their livestock. With the arrival of spring, the cost of feeding cattle will decrease and they expect to increase livestock by reproduction and thus provide existence for the next winter.

In this distand underdeveloped village on the slopes of Mount Ozren floods have destroyed crops for animal feed. These are people who live in rural, distand communities and for most of them the livestock and agriculture is the only source of income. By addressing this project support to farmers have been provided to purchase seeds, fertilizers and animal feed which was distroyed in the surface of about 42,000 m<sup>2</sup>. With donated funds corn seeds and fertilizers for spring seeding have been purchased. By engagement of the local community members distribution of the purchased assets was performed to 20 farmers.

TCF used these funds (coming from GFCF donor) for project costs of the Working group for solving the problem of stray dogs in the city of Tuzla. Within the project, the uniqe Register of dogs in the city of Tuzla was developed. The group conducted a media campaign about responsible ownership, organized education workshops in primary schools and local communities, and advocated for additional funds from Tuzla government for subsidized registration, vaccination and micro-chipping of dogs with owners. The results are shown in annual report of TCF.

Tuzla Community Foundation and the Organization for Children and Youth "Smile for Smile" with the help of city authorities, organizations and individuals established a multifunctional training house for young people "Labyrinth" in response to the needs of all young people and organizations in Tuzla Canton. This is the first facility for this purpose in northeastern Bosnia and Herzegovina and a kind of response to the significant problem of lack of space for the education of young people, which until now held in cultural centers, mountain houses and similar spaces which were inappropriate for this purpose. Multifunctional training house "Labyrinth" has 320 square meters and is equipped with a adjusted premises for workshops and organizing various forms of formal and nonformal education with the appropriate multimedia content. The house offers the possibility of overnigh stay for 40 people in adequately equipped sleeping rooms. Establishment of the training house for young people is an idea that TCF has been developing through the years with the aim to create conditions for developing capacities of youth sector in the City of Tuzla. The establishment of "Labyrinth" provided conditions for multi-day training with the possibility of overnight stay and further empowermetn of large number of young people from the area of Tuzla region.
